La nuova collezione BEMIT è una serie di lampade a soffitto e parete, nata dalla voglia di creare un prodotto altamente innovativo e ricercato con una forma essenziale ed originale. Grazie al suo design ed alla luce indiretta può essere utilizzata negli ambienti più diversi.

New BEMIT collection is composed by wall and ceiling lamps. It has been created as a very innovative and unique item in an essential and original structure.
This collection can be used in most different locations thanks to its design and the indirect light.
